Services Offered

↗ **Appraisal**

Replacement method, formula method, or cost of cure, for legal, insurance or planning purposes.

↗ **City/County Reports**

Removal or preservation reports to city or county standards.

↗ **Diagnostics**

Shigometer, starch tests, penetrometer, root investigation, and site evaluation.

↗ **Expert Witness**

Court experienced, deposition, mediation, arbitration, and reports.

↗ **Hazard Evaluation**

Risk analysis (current methods) defect identification and investigation. Decay, root health and branch attachment investigation. Abatement options explored.

↗ **Inspection**

Inspection of trees or palms at nursery or site for health and structure.

↗ **Root Investigations**

Inspection of tree or palm roots for health and location. Root and root crown excavation using supersonic Air Knife does not harm roots.

↗ **Palm Expert**

Selection, culture and diagnostics based on years of experience growing palms and years of study.

↗ **Pruning Specifications and Supervision**

Production of written specifications unique to project. Monitoring, instructing and supervising of field work.

↗ **Species Selection**

Edited computerized plant selection, using very large data base for selection. Availability based on years of experience.

↗ **Tree Maintenance and Monitoring Plans**

Irrigation, fertilization, mulching, pruning and replacement schedules for long term maintenance contracts or long term recovery of sick or injured trees.

↗ **Tree Preservation**

Planning protection, compaction prevention, construction method alternatives, preliminary root cutting, and monitoring. Tree relocation advice.
